

### **Urban Maintenance System acquires Paul Cameron Industries (PCI)**

UMS is pleased to announce that we have finalised the acquisition of PCI (Paul Cameron Industries). The contract of Sale was signed by the Directors of both companies which ends the sale process and marks the beginning of a new chapter for both organisations.

PCI is a Sydney based maintenance company with additional offices / depots in Melbourne & Brisbane. PCI is a niche service provider within the petroleum industry providing a range of grounds & garden services and has approximately 38 employees.

Many service stations have grass, plants and shrubs etc that need maintaining and PCI is the dominant provider of these services to the Petroleum Industry. PCI has long term contracts in place with organisations such as Caltex, Woolworths, Coles Express, Officeworks and 7-11 who are prestigious customers we look forward to continuing to work closely with.

The acquisition of PCI further consolidates our Sydney based operations, strengthens our position in the Petroleum Industry, delivers a Brisbane office / depot and resources, adds a new service that UMS can offer to existing or new customers within UMS Facilities Maintenance & Infrastructure and importantly brings a new set of skills and people to UMS.

We are thrilled that the acquisition has taken place and welcome the PCI staff to the UMS team. The Founder and Managing Director of PCI – Mr Paul Cameron will continue with the company in the capacity of Business Manager reporting to Lyndon Urquhart in UMS Petroleum Services.
